## Professional Summary

Currently working with Tata Consultancy Services as a module lead by which I have gained extensive experience and expertise in Requirement Analysis, Production Support and Maintenance Activities, Database Administration, Change Request Management and Software Development. I am currently working with SQL Server 2008 and was involved in a Database Migration project which involved migrating databases from Sybase ASE 12.5 to SQL server 2008. I have extensively used SQL Server Integration Services (SSIS), SQL Server 2008 Database Management Tools, SQL Server Reporting Services (SSRS), SQL Server Migration Assistant (SSMA) and Visual Studio environment. My current work profile has also given me opportunity to interact with the clients worldwide and understanding global work culture.

## Experience Summary

- Around three years of professional work experience in Microsoft SQL Server 2008 administration and T-SQL development, SSIS and SSRS as a SQL Server DBA/ETL developer.
- **Direct engagement with Client for 11 months at Sweden.**
- Expertise in creating SSIS packages using Control Flow, Data flow, expressions and variables.
- Experience in installation, configuration and maintenance of SQL Server.
- Involved in migrating the databases from Sybase to SQL server 2008 in the Migration project.
- Onsite coordinator during UAT and deployment phase of the Migration project.
- Handled the ETL Process of the migration project using SSIS as ETL tool to load the data from Sybase to SQL server as well as creating interfaces with other systems.
- Developed ETL Process of Online Payments System for a SQL Server production environment using SSIS to be used in Russia by Client Company.
- Experience in SQL Server database administration and maintenance with front end portal built in Microsoft SharePoint.
- Involved in various phases of Software Development Life Cycle including Implementation, Integration, Testing, Deployment and Maintenance.
- Developed complex stored procedures, Views, Triggers, Cursors for applications as per business requirement during the support phase.
- Experience in using various source control tools like Visual Source Safe (VSS) and Team Foundation Server (TFS).
- Ability to work in a fast paced environment, Good team player and can work independently. Helped the database developers on technical issues.

## Affiliations

**Professional Society / Certification:**

Microsoft Certified Technical Specialist – SQL Server 2008

**Date Certified:** December 2010

## Employment History

**Name of the Company:** TATA Consultancy Services (TCS)

**Designation:** Systems Engineer

**Duration:** September 2008 – Till Date (2 Years 10 Months)

**Domain Expertise:** Media & Information Services

**Client:** International Masters Publishers (IMP)

## Educational Qualifications

**Bachelor of Engineering (Computer Engineering)**

Course duration: 2004 – 2008, Graduation: June 2008

Vivekanand Education Society's Institute of Technology (VESIT), Mumbai.

Aggregate Percentage: 60.31%

## Technical Skills

**Operating System:** Windows Server 2008/2003/2000

**Software/ Tools:** SQL server Integration Services (SSIS), SQL server Reporting Services(SSRS), SQL server Migration Assistant (SSMA) for Sybase, Embarcadero DBArtisan, Microsoft Visual Studio TFS, SQL Server Management Studio (SSMS)

**Database:** SQL Server 2008, SQL Server 2005, Sybase ASE 12.5

## Details of Projects:

→ Since September 2010

Tata Consultancy Services

**Title:** IMP AB Maintenance & Enhancement Project

**Client Name:** International Masters Publishers (IMP)

**Position:** SQL Server DBA, T-SQL Developer, Module Leader

**Languages:** SQL Server 2008, T-SQL, PowerBuilder 6.5.1

**Special Software:** Team Foundation Server (TFS)

**Team Size:** 2

**Location:** Malmö, Sweden / Mumbai, India

**Description:** A direct marketing campaign management and decision support system. It provides information about Campaigns, Lists and Segments. It provides projections of future performance for formula, payments, and returns, Campaign simulation, List selection, Campaign performance tracking and analysis.

### Responsibilities:

- Support and stabilization of newly migrated SQL Server environment.
- Maintenances and enhancements of SSIS packages developed for interfaces.
- Deploying and administrating SSRS reports.
- Analysis, Design, Coding, Testing, implementation and documentation of the entire database related changes.
- Client Interaction on a day to day basis to understand business requirements.
- Maintaining SQL server database systems.
- Handled MIS update process involving complex SQL queries and debugging.
- Developed stored procedures, Functions, Views, Triggers, Cursors for mission critical applications.
- Direct engagement with the Client for requirement gathering and onsite support at Malmö, Sweden.

## Details of Projects:

→ November 2009 – August 2010

Tata Consultancy Services

**Title:** MIS Database Migration

**Client Name:** International Masters Publishers (IMP)

**Position:** SQL Server DBA, ETL Developer, Onsite Coordinator

**Languages:** SQL Server 2008, SSIS, T-SQL, PowerBuilder 6.5.1

**Special Software:** Team Foundation Server (TFS)

**Team Size:** 5

**Location:** Malmö, Sweden / Mumbai, India

**Description:** The project involves database migration from Sybase ASE to SQL Server 2008. It also involved consolidation of three servers to one which reduced costs and improved performance of the system. SSMA and SSIS are used for schema and data migration.

### Responsibilities:

- Successfully migrated the databases from Sybase to SQL server 2008.
- Database schema migration using SSMA (SQL server migration assistant for Sybase)
- Successfully migrated about 2300 tables containing 180 GB data from 15 databases situated in Sweden, New York and Sydney using SSIS.
- Used SSIS extensively in the project for data migration and interfaces.
- Created different transformations in SSIS for loading the data into SQL database which includes (fuzzy lookup, conditional split, SCD, Pivot, multi cast, merge join, Data conversion, Script task and many more).
- Modified complex stored procedures, triggers and functions.
- Creating Backup and disaster recovery strategies.
- Modified PowerBuilder scripts to connect to SQL Server instead of Sybase.
- Business Reports developed in excel and PowerBuilder were migrated to SSRS reports.
- Interaction with the Client on a day to day basis and understanding the requirements.
- Onsite coordinator for the Migration project handling UAT and Deployment.
- Documentation of the complete migration project with Best practices and Lessons learnt.

## Details of Projects:

→ December 2008 – October 2009

Tata Consultancy Services

**Title:** IMP AB Maintenance & Enhancement Project

**Client Name:** International Masters Publishers (IMP)

**Position:** Sybase DBA, T-SQL Developer

**Languages:** Sybase ASE 12.5, T-SQL, PowerBuilder 6.5.1

**Special Software:** Embarcadero DBArtisan

**Team Size:** 3

**Location:** Mumbai, India

**Description:** A direct marketing campaign management and decision support system. It provides information about Campaigns, Lists and Segments. It provides projections of future performance for formula, payments, and returns, Campaign simulation, List selection, Campaign performance tracking and analysis.

### Responsibilities:

- Sybase ASE activities like device creation, backups, server maintenance, performance tuning, etc.
- Complex T-SQL development and debugging.
- Analysis, Design, Coding, Testing, implementation and documentation of the entire database related changes.
- User problem resolution like solving issues and enhancement requests.
- Using Embarcadero DBArtisan to connect to Sybase database and perform administrative tasks.
- Designing and maintaining Sybase server database systems.
- Performance tuning of stored procedures and tables.
- Index creation and defragmentation thus ensuring high index usage.
- Handled MIS update process involving complex SQL queries and debugging.
- Developed complex stored procedures, Functions, Views, Triggers, Cursors for mission critical applications.

## Personal Information

- **Date of Birth** : 27<sup>th</sup> October 1986
- **Marital Status** : Single
- **Languages Known** : English , Hindi , Marathi and Sindhi

**I, hereby declare that all the information provided by me in this application is factual and correct to the best of my knowledge and belief.**

**Place:** Mumbai
